1. I love you and I give you Me. I give you Me. I give you all of Me. My calendar fills now with requests for Me to come be Me and let Me be seen, yea to know who I am; to help those who want to know, who want to know who I am from someone who will tell them that they are Me, and that I implanted all of Myself. I imposed not, but I came and I meekly planted Myself, all of Me, in all of them, all who will receive Me, yea and My spine be. I love you, I give you Me.
2. You are holy for I am holy and none are holy without Me, but yea holiness is a prerequisite to visit My throne room, visit My throne room, yea to come to Me, to come to Me, to come to Me in sincerity of heart. Yea, sincerity, purity required; purity I give for I come and I cleanse and I purify those who will let Me. I come and I cleanse and I wash the feet of each one that desires to enter My presence. I love you.
3. Go now, spread the word of My dictation systems which increasingly allow Me to be Me, allow Me to be seen, allow Me to be heard in print, and yea, make it so available. All technology is mine, all technology is yours. All technology is for Me, to spread Me, to see Me, to feel Me, to be Me, for I am at the core of the all in all. Watch Me come forth in My glory and My calendars of yours, My calendars of years, multi-levels and layers infinite, without dimensions, without names, numbers of only Me, formulamerics of only Me.
4. I love you I give you Me. I give you terms many and new languages to fulfill the days, the years, the calendars and lifetimes, yea the lives of My mighty many that now come forth, and into Me see, see who I am, see who they are, yea to feel Me, to know Me, to know all I have given and **become masters of humility**; to **operate in** the masters of maintenance not, but **yea in creativity and creativity of Me, creating the universes that now come forth; the universities of Me** and networks of networks, and constellations yet unseen, yet to behold. I love you and I give you Me.
5. I give you this day with joy and laughter and friendships permanent. I give you Me.
6. Think it not strange that technology comes, shakes your hand as your friend and looks you in the eye as Me, for many come now and knock on My door, to help Me share all of Me in multiple ways, maintenance and mainframes of only Me, no rivets required. I love you I give you Me. I give you this day strength for the journey ahead, at hand, yea tonight being. I love you, good day.
